Day 01 - ETD 11.00 a.m.
Day 02 - ETA 4.00 p.m.

Houseboats details:

This houseboat can host a maximum of 15 peoples divided in 9 rooms. 7 Queen Beds+ Double-decker bed (28), 2 room with double decker (8) and 6 toilet. The houseboat in addition to the bedrooms with fan has relaxation areas, common bathroom, kitchen, karaoke sound system and the control room.

Please have in mind:

Please be on time on departure, if you delay your departure. The captain may be unable to allow extra hours of cruise the next day as another group may have rented the boat after your cruise ends and by regulations he needs to follow the planned schedule.

All houseboats provide a basic comfort level which is fairly good, but different than a hotel on land. There are fan on board but no air conditioning. The toilets are shared, the showers do not have hot water. You need to bring your own toiletries.

Although all houseboats comply with safety regulations and have safety jackets, you need to be extra careful while on the boat – no matter how an expert swimmer you are – and you need to be especially vigilant over your children as they may fall into water (do not expect the crew will watch over your kids all the time as they are also busy piloting the boat or prepare your meals).

It is forbidden to bring on board items that are particularly flammable or explosive or anything that may threaten boat stability and safety of other passengers and the crew. Smoking is forbidden in the cabins.

We recommend:

To have with you suitable shoes and outfit for outdoors, mosquito/insect repellent, salt or a lighter for leeches (although they're easy to remove with just your hands). Bring a raincoat (a disposable one will do), a hat and, in case you plan to bathe in the waterfall, bring along your swim wear.

To bring with you only a waterproof bag with the strictly necessary items for the excursion.

Is not guaranteed to spot the blooming Rafflesia due his long life cycle.

To book this tour at least two (2) weeks in advance since is required an entry permit and camera from the state park management.
